

Zsolt Bozsó

Birth place: Baja; **Date:** 09.02.1974.

Current Workplace: Department of Medical Chemistry, Faculty of Medicine,
University of Szeged, Szeged, Hungary

Current Position: assistant professor (since 2015)

Degrees: M.Sc. in chemistry, 1997, József Attila University,
Szeged, Hungary

Ph.D. in bioorganic chemistry (2004, Creighton
University, Omaha, USA)

Title of the thesis: Synthesis of epidermal growth
factor by native chemical ligation and
incorporation of non-natural amino acids

Work Experience:

1997-1998 ICN Alkaloida, Tiszavasvári, Hungary, engineer

1998-2004 Dept. of Biomedical Sciences, Creighton University, Omaha, Nebraska, USA,
graduate student

2005-2007 Department of Medical Chemistry, University of Szeged, assistant research fellow

2007-2015 Department of Medical Chemistry, University of Szeged, assistant lecturer

Fields of Expertise: synthesis and purification of peptides, radioligand binding experiments

Teaching Experience:

2007- Medical Chemistry (seminar and lab instructor)

2009- Introduction to Medical Chemistry (seminar instructor)

2009-2013 Preparatory course in chemistry (lecturer)

Membership of Scientific Societies: member of the Hungarian committee of peptide
Chemistry, HAS

Publications:

Number of scientific papers: 19

Impact factor: 62,055

Citations: 327

H-index: 10

Independent citations: 239

Numbers of posters at conferences: 18
